In the spirit of full disclosure, I own Microsoft Stock. The Justice Department action against Microsoft, started by the corrupt Clinton administration, has cost me a great deal of money in my retirement funds. I shall remember the great and wasteful injustice done against this wonderful company forever and I shall vote against any politician who did not actively come out in support of Microsoft on the day your suit was first filed. I use Microsoft products whenever they are available, because they are, in a word, *superior*. Most of the other stuff simply does not work as well. I have actually purchased some of the Microsoft competitors' products and "thrown them away in disgust" because they did not work as well as they should. I was opposed to the entire law suit against Microsoft. I felt it was brought by a bunch of "whiners" who were unable to compete on design, execution and service. I think Microsoft should never have been prosecuted, however, if Microsoft finds the settlement "acceptable", that should be the end of the story. I want you to cease and desist in your persecution of Microsoft. I believe my attitude is typical of vast numbers of US voters. Put an end to this nonsense!
